11:30 am	Q & A
12:00 pm	Light Lunch provided
12:45 pm	Gwen Glew, M.D., director of the Fragile X Clinic at Children's
1:00 pm	Charles Laird, Ph.D.
1:15 pm	Paul Hagerman, M.D. Ph.D.

Special Guest Speakers

Randi Hagerman, M.D. is a Developmental and Behavioral Pediatrician and the Director of the M.I.N.D. Institute (Medical Investigation of Neurodevelopmental Disorders) at UC Davis Medical Center. An internationally recognized clinician and researcher in developmental and behavioral pediatrics, she has spent over 20 years conducting clinical work and research on Fragile X Syndrome.

Paul Hagerman, M.D., Ph.D. is a Professor of Biological Chemistry and a M.I.N.D. Institute Investigator at the UC Davis, School of Medicine. Dr. Hagerman is co-editor with his wife, Randi, of the third edition of *Fragile X Syndrome: Diagnosis, Treatment and Research*.

Gwen Glew, M.D. MPH, is a developmental pediatrician at Seattle Children's Hospital and the University of Washington. She has worked in pediatrics for 14 years and is a Fellow of the American Academy of Pediatrics. She is a member of the Clinic Consortium of the National Fragile X Foundation and has a special interest in Fragile X, Autism, prematurity, and Cerebral Palsy.

Charles Laird, Ph.D. is Professor of Biology at the University of Washington, Associate Director for Fragile X Research at CHDD, and Adjunct Professor of Genome Sciences.

Three education clock hours are available through this conference.
